

HVWRP Project Update **June 2006**

The Hope Valley Wattleup Redevelopment Project (HVWRP) has moved into a development focus with structure planning for the first development stage in Hope Valley nearing completion.

With the development phase having now started, it has been decided to relocate LandCorp staff from the Wattleup Information Office. As of July 1, 2006, they will be located at LandCorp's Perth office.

The Wattleup office will be fully operational until this time and contact can be made via telephone on 9437 2155.

The project team will still be readily available to people within the Hope Valley Wattleup area and contact can be made via LandCorp's main telephone number on 9482 7499 from July 1.

The Community Liaison Group (CLG) also welcomes contact from Hope Valley Wattleup community members and they have supplied their contact details should you want to discuss any matters with them individually.
